# ABOUT US

DRIVING OUR **INDUSTRY** FORWARD

## PARTNER WITH **PHOENIX** AT ANY STAGE OF YOUR PROJECT

Phoenix Energy Services is an innovative, full-service technology partner delivering end-to-end solutions across the energy and industrial sectors. From early-stage concept development through execution, commissioning, and ongoing support, we provide integrated Electrical, Instrumentation, Automation, Engineering, Compression, and Safety Services. Our turnkey approach streamlines project delivery, reduces risk, and ensures reliable, efficient, and compliant operations tailored to each customer's specific requirements.

## POWERED BY **PEOPLE**

At the core of Phoenix Energy Services is a team of highly skilled professionals driven by experience, accountability, and collaboration. Our people combine deep technical expertise with a practical, solutions-focused mindset to deliver consistent results in the field. By investing in our workforce and fostering a culture of safety, innovation, and continuous improvement, we build long-term partnerships and deliver measurable value on every project.

## MAJOR PROJECT LIST

POWERED BY PEOPLE

PHOENIX  
ENERGY SERVICES INC.

### Major Project #1

#### Diamond LNG - 1 Dawson Groundbirch Pipeline & Tie-In Project

Duration: 12 Months

Year Completed: 2022

##### Project Details:

- Designed and constructed two gas custody transfer and metering stations with bi-directional flow capabilities
- Automated sites for 100% remote operations with control through client SCADA.
- Supply and install of cables
- Cable tray
- Grounding
- Junction boxes
- Yard lighting
- Electrical heat trace
- Instrumentation and tubing
- Transformers.
- Assisted with HVAC unit installation, Commissioning and Startup.
- Designed and constructed one gas pipeline blending facility equipped with metering
- 2 of 6 tie-ins used for this project. another tie-in was added in the 2024 project
- Designed and constructed gas analyzing stations
- Gas Chromatograph - Sales Gas Hydrocarbon Dew Point
- H2O Analyzer - Sales Gas H2O Dew Point
- H2S Analyzer - Sales Gas H2S Concentration

**\$2.5-\$5M**  
CONTRACT VALUE

### Major Project #2

#### Kelt Exploration Inga Lake 24 Well Pad Construction

Duration: 3 Months

Year Completed: 2019

##### Project Details:

- 24 Well Pad Construction
- Build and Install Wet Meter Skid on each well
- Install Two Group Separators
- Two Test Separators
- MCC Building
- Flare Knock Out System
- Fully Completed Site Automation
- Commissioned to SCADA

**\$1.5-\$2.5M**  
CONTRACT VALUE

## MAJOR PROJECT LIST

POWERED BY PEOPLE

### Major Project #3

#### Kelt Farmington Battery

Duration: 10 Months / Ongoing  
Year Completed: 2025

##### Project Details:

- Full battery build
- Office buildings
- Tank farm
- Inlets
- Dehy
- Compressors
- Fully Completed Site Automation
- Commissioned to SCADA
- VRU
- Water Injection
- Transfer Pumps
- Turnkey MCC package

**\$5-\$10M**  
CONTRACT VALUE

### Major Project #4

#### Pembina Namao PLC Migration

Duration: 6 Months  
Year Completed: 2024

##### Project Details:

- Gas Plant PLC upgrade/migration.
- Various MOC jobs throughout facility.

**\$1.5-\$2.5M**  
CONTRACT VALUE

### Major Project #5

#### Pembina Becker Road Pump Station

Duration: 6 Months  
Year Completed: 2024

##### Project Details:

- New custody transfer pump station
- New MCC building
- New pump buildings

**\$1-\$2M**  
CONTRACT VALUE

## MAJOR PROJECT LIST

POWERED BY PEOPLE

### Major Project #6

#### Pure Life Heartland Project - Phase 1

Duration: 8 Months  
Year Completed: 2020

##### Project Details:

- Power Distribution Design and Installation
- Lighting System Design and Installation
- Fire Alarm Design and Installation
- Lighting and Instrument Control Design and Installation
- Design and Installation to Canadian Food Safety Standard
- Fully Complete Site Automation

**\$2.5-\$5M**  
CONTRACT VALUE

### Major Project #7

#### Inception Gold Creek Gas Plant

Duration: 8 Months  
Year Completed: 2018

##### Project Details:

- Pipeline sales metering skid
- Commissioned to SCADA
- PLC E-House
- New flare system
- 4 Compressors
- High & Low Pressure Inlets
- Fully Completed Site Automation
- New sales compressor install with fuel gas metering skid
- Commissioned to SCADA
- Generators
- Water Injection
- MCC
- VRU
- 6 Production Tanks
- I/A Skid
- Office
- Treater

**\$5-\$10M**  
CONTRACT VALUE

### Major Project #8

#### Keyera Kaps Power Solutions

Duration: 12 Months  
Year Completed: 2023

##### Project Details:

- Full design build on a solar hybrid generator package for remote pipeline risers that required 480v power.
- Project was turnkey from design phase, to final product execution on site.

**\$2.5-\$5M**  
CONTRACT VALUE

## MAJOR PROJECT LIST

POWERED BY PEOPLE

### Major Project #9

#### Keyera – AEF to ADT iC8 Line Phase 1 & 2

Duration: 3 Months  
Year Completed: 2020

##### Project Details:

- Install new cable tray, fittings, covers, and barriers.
- Demolition of existing equipment (ESDV's, PSHH) and associated cables.
- Upgrading control panels with new modules and network switches.
- Installation of Variable Frequency Drive and associated motor control changes.
- Installation of a new UPS system and associated breakers & fiber optic communication patch panel accessories

**\$750K-\$1.5M**  
CONTRACT VALUE

### Major Project #10

#### Kelt Oak Battery

Duration: 10 Months  
Year Completed: 2022

##### Project Details:

- Full battery build
- Tank farm
- Compression
- Dehy
- Pump skid
- VRU
- Generators
- Turnkey MCC package
- Instrument air package
- Group and test seps
- Additional 4 wells on battery
- Fully Completed Site Automation
- Commissioned to SCADA

**\$5-\$10M**  
CONTRACT VALUE
